The Odesa Debate, inception in 2017, is the preeminent platform for debate between Ukraine, Europe and North America. We bring together Ukraine and her transatlantic partners, from government officials to businesses leaders and experts, to shape the agenda on the most pressing issues across sectors. It is designed to encourage Ukrainian and transatlantic leaders to work together and directly confront the challenges we face today. Our mission as a conference is to create a platform for debate in an inclusive and intimate atmosphere. We accomplish this by showcasing diverse voices, promoting candidness and openness in our dialogues and forming close bonds between conference participants.
